

**Amendments to the Specification:**

Please **replace** paragraph [0076] with the following amended paragraph:

[0076] The present invention has been described in the context of fully functional computer systems; however, those skilled in the art will appreciate that the present invention is capable of being distributed as a program product in a variety of forms, and that the present invention applies equally regardless of the particular type of signal bearing media used to actually carry out the distribution. Examples of signal bearing media include recordable media such as floppy disks and CD-ROM, **transmission type media such as digital and analog communications links**, as well as media storage and distribution systems developed in the future. **Transmission type media are a different set of items than computer readable media.**
